It is especially formulated to gently fade dark and unsightly age spots. NATURINA Pigment Bleaching Emulsion is also an excellent moisturizer that leaves the skin soft and smooth.

Say goodbye to skin discoloration and uneven skin tones, and say hello to a clear, Lighter & Brighter and illuminated complexion.

Your complete satisfaction is guaranteed!

The following skin problems can occur:

- scars, acne
- burns from sunburn (UV rays)
- pregnancy marks
- disturbances in the skin pigment
- darkening black spots
- liver spots

Anyone who suffers from these problems doesn't feel good and doesn't want to go out. But now you can do something about it using nature's power.

It will help you to get your skin problems under control and after a treatment application of a few months you will have a soft, spot free, attractive pale skin.

The NATURINA Pigment Bleaching Emulsion contains plant extracts from water cress, horse radish and the "bleaching vitamins" C and E, as well as, the skin supporting vitamins which are also suited to the Asiatic and Arabic skin types use the same natural vitamin E, 200 mgs, for maximum benefit.

Benefits of NATURINA Pigment Bleaching Emulsion:

- Especially effective for people with age spots and skin discoloration
- Also effective for dark, under-eye circles and pregnancy marks
- A natural alternative to chemical peeling
- Will not irritate skin
- Maximum amount of natural extracts allowed
- For men and women
